SUBJECT: Elimination of Asset Limit for TAFDC and EAEDC

Yesterday, the state Legislature enacted legislation that eliminates the TAFDC and EAEDC asset limits. Please be advised that, effective immediately, assets must not be counted when determining eligibility for both TAFDC and EAEDC and that VC-1's are not to be issued for any assets. Any pending TAFDC or EAEDC case with outstanding verifications for assets must have the item for assets dispositioned as verified. No TAFDC or EAEDC cases are to be closed or denied due to assets.

An OLGIT is forthcoming with further details and instructions regarding this change.

Any questions pertaining to assets should be sent to the procedural mailbox
