Assistive Technology Exchange of New England is an internet site that allows people to buy and sell adaptive equipment. Equipment such as wheelchairs, grab bars, hospital beds, tub seats, etc can be listed for free on this site. Items posing hygiene or safety risks can not be listed. The goal of the AT Exchange in New England is to put equipment that is not currently being used into the hands of someone who can benefit from it. People from states outside New England can list also. The listings on the Exchange include items for vision, hearing, speech communication, learning, mobility, seating and positioning, daily living, environmental adaptations, transportation and vehicle modifications, computers, recreation, sports, and leisure. The Exchange is not for vendors or distributors, but is for private individuals who have an item or who are looking for an item. Companies are welcome to donate equipment.

The Massachusetts Assistive Technology Loan Program, operated by Easter Seals Massachusetts, is an alternative financing project that gives people with disabilities and elders access to cash loans to purchase assistive devices and services. The program has many options that can help — even for people who don't think they would qualify for a loan. Assistive technology (AT) is any device that helps a person achieve greater independence and lead a more productive life. Many different items are considered assistive technology, including: hearing aids, computers with special programs, flashing doorbells, electric wheelchairs or scooters, adapted vehicles, home modifications such as ramps and widened doorways.

Area Served: Everett, Malden, Medford, Melrose, North Reading, Reading, Stoneham, Wakefield

The Long Term Device Loan Program gives people with disabilities access to the low-cost devices they need to live more independently. The AT Long Term Device Loan Program provides loaner, low-cost assistive devices to residents of Massachusetts at no cost to the borrower. "Low-cost" means anything with a total cost of under \$500.00. If you are a Massachusetts resident with a disability or are acting on behalf of a relative with a disability, you may participate in the program. This program is specifically for those with low household incomes, so financial need has to be demonstrated. The applicant needs to show that the requested device enables the person with a disability greater independence and improved quality of life and relates to a functional limitation imposed by their disability.

This program is designed to allow those with a demonstrated financial need to borrow low-cost devices they need to live more independently. You can keep the device for as long as you need it! When you no longer need the assistive device, it must be returned to the MA AT Long Term Device Loan Program. Please call the program for more details and information on how to apply or you can also download an application by going to the [Get Our Applications](#) page

Area Served: All

SAFELINK WIRELESS® service is a program for income eligible households provided by TracFone Wireless, Inc. In order to participate in the SAFELINK WIRELESS® service, persons must meet certain eligibility requirements set by each State where the service is to be provided. These requirements are based on a person's participation in a state or Federal support programs or by meeting the Income Poverty Guidelines as defined by the U.S. Government. SAFELINK WIRELESS® service is limited to one person per household. Person qualifies if participating in following programs: Emergency Aid to the Elderly, Disabled and Children, Supplemental Security Income, Low Income Home Energy Assistance Program, Food Stamps, MassHealth, Transition Aid to Families with Dependent Children, Fuel Assistance, and no other person in household currently receives Lifeline services through another phone carrier. For additional info regarding the Lifeline Program, contact the Consumer Division of the MA Dept of Telecommunications and Cable at 800-392-6066 [www.mass.gov/dtc](http://www.mass.gov/dtc)

The SafetyNet by Lojack™ service helps caregivers provide an added layer of protection for loved ones with cognitive conditions such as autism and Alzheimer's from the potentially life-threatening behavior of wandering. The service enables public safety agencies to more effectively find and rescue people at risk in the event they wander, supplementing traditional searches that often take countless man-hours. By leveraging proven technology and processes, the SafetyNet by Lojack™ service aids in the safe return of a person who goes missing and provides peace of mind to caregivers. How SafetyNet by Lojack™ Works

Once caregivers enroll their loved ones in the service, they receive a SafetyNet by Lojack™ Bracelet, which is worn by the person at risk typically on their wrist or ankle. The caregiver provides information about the client to assist in search and rescue, which is then entered into a secure database. SafetyNet by Lojack™ provides 24x7 emergency caregiver support. For participating public safety agencies, SafetyNet by Lojack™ provides Search and Rescue Receivers, certified training and ongoing support at no cost.

The SafetyNet by Lojack™ Bracelet constantly emits a Radio Frequency signal. Radio Frequency is the technology of choice because, unlike cellular and GPS technology, its signal doesn't rely on cellular networks or satellite signals and can often be tracked when a client wanders into a shallow body of water, a densely wooded area, a concrete structure such as a garage, or a building constructed with steel.

The Search and Rescue Receivers can detect the Radio Frequency signal emitted from a SafetyNet by Lojack™ Bracelet typically within a range of approximately one mile in on-the-ground searches and 5-7 miles in searches by helicopter.

Stairlifts, or chair lifts, are a great way to make it easier and safer to get up and down stairs. Our stairlifts are used by people from all walks of life and, with over half-a-million installations worldwide, we have the experience to help you make a good choice.

Most of our customers have looked into moving away to a new home or remodeling, but find that a Stannah stairlift is a quicker and more affordable solution.

How we can help you...

- Our experienced staff can assess your needs, and recommend a suitable stairlift,
- We're affordable, with a range of models to purchase (new & used) or rent short-term,
- Our own factory-trained technicians have decades of experience between them,
- We have a great warranty, a seven-day money back guarantee and a buy-back program. We supply both new and used stairlifts, and have short-term rentals and rentals with the option to buy after six months. As such we can find something for almost any budget, and a good stairlift can certainly be installed for much less than the cost of selling and moving home, or remodeling your home to provide extra living-space downstairs.

For exact pricing, we normally come and take a look at your stairs, then provide you with a written quotation, without obligation.

If you no longer need your Stannah stairlift, we have a guaranteed buy-back program. We'll provide details when we write the quotation for your stairlift. A helpful step if you're thinking about getting a stairlift is to have one of our Advisors come and measure your stairs, see how a stairlift would fit into your home, and answer any questions you may have. We do this at no cost and without obligation.

An impressive stockpile of once-useful power wheelchairs exists. But today, these wheelchairs often end up discarded in landfills or junkyards, rusting in garages, basements or other storage areas because insurance companies and wheelchair distributors have never developed trade-in or recycling arrangements. Our solution – and the mission of The Wheelchair Recycler – is to collect; refurbish and re-issue used power wheelchairs at little or no expense to the new user. Most equipment is 90% below market value.
